

SALINE SOLUTION FOR EYES AND WOUND IRRIGATION

Saline solution for eyes and wound irrigation is a phosphate buffered, sterile and isotonic solution containing Sodium Chloride, Potassium Dihydrogen Phosphate, Sodium Hydroxide and Purified Water. It also acts as an irrigation solution for eye and wound wash.

Content:

A phosphate buffered, sterile and isotonic solution containing Sodium Chloride, Potassium Dihydrogen Phosphate, Sodium Hydroxide and Purified Water.

Intended use:

Saline solution for eyes and wound irrigation acts as an irrigation solution for eyes and wound wash. It also aids in the removal of foreign materials from the eyes or wound.

Indications (Uses):

Saline solution for eyes and wound irrigation is indicated for use as emergency eyes and wound wash and flushing/irrigating the eyes and affected areas to remove loose foreign materials, air pollutants, chlorinated water and to refresh irritated or tired eyes.

Intended User:

Intended for affected individuals (no age and gender restriction).

Directions:

1. Twist off the top to open.
2. Flush the affected eyes or areas as needed.
3. Single use only.

Action:

Saline solution for eyes and wound irrigation flushes and irrigates the eyes and affected areas by removing loose foreign materials, air pollutants, and chlorinated water. It refreshes irritated or tired eyes.

Contraindications (Reasons not to use):

Do not use if allergic to any of the declared ingredients in the product.
